CALENDAR ITEM

21.

APPROVAL OF MAPS OF THE SURVEY OF THE ORDINARY HIGH WATER MARK AND THE MEAN HIGH TIDE LINE ALONG THE SHORE OF THE PACIFIC OCEAN FROM THE LOS ANGELES-VENTURA COUNTY LINE TO LAGUNA POINT IN VENTURA COUNTY - W.O. 2417.

A coastal boundary survey completed from the Los Angeles-Ventura County line to Laguna Point, Ventura County, in anticipation of possible offshore oil leases has shown that the ordinary high water mark has been fixed in location in part by artificial influences created by State Highway construction in 1932. The position of the mean high tide line continues to fluctuate naturally in the balance of the coastal segment and is so shown in the completed survey.

IT IS RECOMMENDED THAT THE EXECUTIVE OFFICER BE AUTHORIZED TO APPROVE AND HAVE RECORDED SHEETS 1 THROUGH 13 OF 13 OF THE MAPS ENTITLED "SURVEY OF THE ORDINARY HIGH WATER MARK AND MEAN HIGH TIDE LINE ALONG THE SHORE OF THE PACIFIC OCEAN, LOS ANGELES-VENTURA COUNTY LINE TO LAGUNA POINT, VENTURA COUNTY, CALIFORNIA", DATED OCTOBER 1956 TO DECEMBER 1956.
